Sample Question Paper Physical Education and Yog (373)

Time: 3 hrs Maximum Marks: 70

Note:

- i. This question paper consists of 38 questions in all.
- ii. All questions are compulsory.
- iii. Marks are given against each question.
- iv. Section A consists of
 - a. **Q.No. 1 to 15** Multiple Choice type questions (MCQs) carrying 1 mark each. Select and write the most appropriate option out of the four options given in each of these questions. An internal choice has been provided in some of these questions. You have to attempt only **one** of the given choices in such questions.
 - b. **Q.No. 16 to 25** —Objective type questions carrying 02 marks each (with 2 sub-parts of 1 mark each). Attempt these questions as per the instructions given for each of the questions.

v. Section B consists of

- a. **Q.No. 26- to 33** Very Short questions carrying 02 marks each to be answered in the range of 30 to 50 words.
- b. **Q.No. 34 to 36** Short Answer type questions carrying 03 marks each to be answered in the range of 50 to 80 words.
- c. **Q.No. 37 to 38** Long Answer type questions carrying 05 marks each to be answered in the range of 80 to 120 words.

SEC	SECTION-A	
S.N	Question	Marks
1.	(i) "Yog" term is derived from which one of the following word?	1
	a. Yoga	
	b. Yum	
	c. Yuj	
	d. Yoj	
	OR	
	(ii) In which year was the Indian Olympic Association (I.O.A.) formed?

34.	Ethics in sports ensure fair play, respect, and integrity. Upholding values like honesty, sportsmanship, and respect for opponents fosters a positive environment and maintains the spirit of competition.	3
35.	The goal of health education should be to bring about beneficial changes in health knowledge, in mind-set, in practice; and not only that but to teach children a set of rules of hygiene also.	3
	OR	
	 Collaborate with teachers, parents, and nutritionists to plan nutritious snacks. Set a date and inform students and parents about the event. 	
	- Choose a variety of healthy snacks like fruits, vegetables, whole-grain options, and low-fat dairy.	
	 Avoid sugary and processed foods. Create posters, flyers, and announcements to educate students about the importance of healthy snacking. 	
	 Organize workshops on preparing simple, nutritious snacks at home. Conduct trivia quizzes to reinforce healthy eating habits. Set up booths with colorful and appealing snacks. 	
	Ensure proper hygiene and safety measures.Invite guest speakers to discuss nutrition and balanced eating.	
	 Encourage students to share their favorite healthy snacks. Gather feedback from students, teachers, and parents to assess the event's impact. 	
	- Identify areas for improvement for future initiatives.	
36.	Jal Neti- Jal Neti: is a process of cleaning nose and surrounding area by passing water through nostrils with the help of a pot filled with luke warm water saline water	3
	Sutra Neti - In Sutra Neti, a waxed cotton thread is traditionally used to clean the nasal cavity. This waxed cotton thread is inserted into the nose and then pulled out from the mouth. Then both ends are held with the	
	hands and nasal cleaning is done by to and fro motion of the thread. Nowadays, a rubber catheter is used instead of the thread and it is easily	
	available in any medical store OR	
	TRATAK KRIYA- Looking intently with blinkless gaze at a small point until tears are shed is known as Tratak Kriya.	
	Purpose- Tratak is practised to activate unknown powers of the mind. Tratak is extremely powerful sadhna.	
	Benefit: It helps in developing concentration. It strengthens the eye muscles.	
37.	Learning is defined a relatively permanent change in behaviour. Stages –	5

- i. Cognitive stage;
- ii. Motor stage;
- iii. Autonomous stage (all points to be explained)

OR

Physical changes: In this stage, the child achieves his/her maximum limit in physical growth. Bones and muscles achieve their final shape. Growth and functions of organs are at their peak.

Emotional changes: Emotions such as anger, love, fear, and happiness etc. are instable, intense, and an individual is unable to control them, and sometimes are irrational in the beginning of this stage. If things are going in a right way he may become happy.

Social changes: Adolescents change their relationship with the family. They separate themselves from their parents. The adolescent gives importance to the group or circle of his/her friends and becomes loyal to them rather than their parents.

5

- 38. **Hast Mudra-** The well being of our health can be controlled by the fingers of our hand because the fingers are essentially electrical circuits. It can adjust the flow of energy. Touching the fingers of hand in different positions is known as Hast Mudra. The Hast mudra can be used to balance five vital elements of the body through five fingers of the hand. Each finger represents each element. These are as follows:
 - 1) Thumb Agni/ fire element
 - 2) Index finger Vayu/air element
 - 3) Middle finger Akash/ space element
 - 4) Ring finger– prithvi/ earth element
 - 5) Little finger jal/ water element

OR

Mula Bandha-

The Sanskrit word Moola means 'base, root, and bottom'; Bandha means 'restrain, hold, lock or closed'. It is also known as 'root lock'. It is related to the subtle body. Its physical counterpart is the perineum muscle, which is located between the anus and the genitals and moves in an upward direction.

Method:

- 1. Sit erect in Siddhasana, pressing the perineum with the left heel.
- 2. Look straight ahead and take a deep breath.
- 3. Exhale slowly and as the abdomen contracts, close the anal sphincters tightly & position and then draw them upwards.
- 4. Hold the contraction for five to ten seconds or as long as possible without discomfort.
- 5. Inhale slowly and relax the anal muscles slowly.

Benefits-

- 1. It tones the digestive system, reproductive organs, and perineum and can help women with painful periods.
- 2. Moola bandha essentially prepares for a spiritual awakening by activating root chakra. Duration Perform five turns in the beginning and increase by one turn every week up to a maximum often turns for gaining the maximum amount of physical benefit. Relax for about five seconds between the contractions.

Precautions-

- 1. Avoid in high blood pressure, heart disease or any major diseases.
- 2. Should not be done in case of bleeding per rectum.
