

FINANCIAL STATEMENTS (WITHOUT ADJUSTMENTS)

In the previous lessons you have learnt to record the business transactions in different books of accounts and their posting into the main book i.e. ledger. You have also learnt the balancing of accounts and preparation of trial balance. One of the important purposes of accounting is to find out the profit or loss of a business for a particular accounting period and also to know its financial position on a particular date.

For this purpose, Income Statement and Position Statement are prepared every year by all business organisations. Income statement is divided into two parts, which are as follows:

- Trading Account and (i)
- Profit and Loss Account. (ii)

Income Statement is prepared to know the earnings of a business during a particular accounting year or the loss suffered during the year. Position Statement, also known as Balance Sheet, is prepared to know the financial position of a business on a particular date.

In this lesson you will learn as to how the financial statements are prepared to find out the profit for an accounting year and to know its financial position on a particular date.

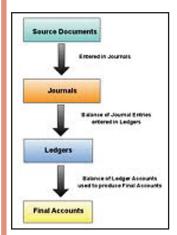

After studying this lesson you will be able to:

- explain the meaning of financial statements;
- explain the objectives of financial statements;
- classify the financial statements into Trading Account, Profit and Loss Account and Balance Sheet and
- prepare Trading Account, Profit and Loss Account and Balance Sheet.

MODULE - V Preparation of Financial Statements

Preparation of Financial Statements

Financial Statements (Without Adjustment)

14.1 MEANING OF FINANCIAL STATEMENTS

Like a student who eagerly waits for his/her annual examination result, every businessman also eagerly waits to know the result of his business for a particular financial year. The businessman also wants to know the financial position of his business on a particular date. This date is normally the last date of the financial year for which the accounts have been prepared. The statements, prepared to know the result of the business and the financial position of the business, are called financial statements. The statement prepared for ascertain gross profit/loss is called Trading Account. The statement prepared to ascertain the net profit is called Profit and Loss Account. Trading and Profit and Loss Account taken together is called the Income Statement. Statement prepared to know the financial position of the business is called the Balance Sheet or Position Statement.

14.2 OBJECTIVES OF FINANCIAL STATEMENTS

Following are the objectives of preparing financial statements:

- **Ascertain the result of business activities:** One of the important objectives of preparing financial statements is to ascertain the Income. Financial statements provide information about the profit earned or loss incurred during a particular accounting period or year.
- ii) Ascertain the financial position of business: Balance Sheet provides information about the financial position of business on a particular date.
- **Correct decision making:** Financial statements are helpful in decision making for the business on the basis of the information provided by financial statements, future decisions can be taken correctly.
- **iv) Judging the performance of management :** Financial statements are helpful in judging the performance of management and utilization of resources of a business house.
- v) Ascertaining the cash position of business: The cash position indicated by the financial statements helps the business in planning the payment of cash to creditors, suppliers etc.

14.3 CLASSIFICATION OF FINANCIAL STATEMENTS

Financial Statements of a sole trader comprise of the following statements:

- I. Income Statement
 - (i) Trading Account and
 - (ii) Profit and loss Account
- II. Position Statement or Balance Sheet

ACCOUNTANCY ACCOUNTANCY

Income Statement

Dr.

Income statement is prepared to find out the profit or loss of business for a particular accounting year. Income statement is made up of the following accounts:

- a) Trading Account and
- b) Profit and loss Account
- a) Trading Account: Trading Account is prepared to find out the Gross profit earned or Gross loss suffered by the business from business activities during an accounting year. This account is prepared in T-form. Following is the proforma of a Trading Account:

Trading Account of M/s XYZ for the year ending.......

| | | By Net Loss transferred to capital A/c | 27,400 |
| | 77,400 | | 77,400 |

INTEXT QUESTIONS 14.2

State whether the following statements are True or False:

- i. Carriage inward is shown in Profit& Loss Account.
- ii. Telephone expenses are shown in Trading Account.
- iii. Carriage outward is shown in P&L A/c.
- iv. Gross Profit is transferred from Profit & Loss Account to Trading Account.

Distinction between Trading Account and Profit and Loss Account

The distinction between Trading A/c and Profit & Loss A/c is as follows:

| S.No. | Trading Account | Profit and Loss Account |
|-------|---|--|
| 1. | This account shows the gross profit or gross loss for an accounting year. | This account shows the net profit or net loss for an accounting year. |
| 2. | All direct expenses relating to business are shown on the debit side of this account. | All indirect expenses relating to business are shown on the debit side of this account. |
| 3. | All direct revenue items are shown on the credit side of this account. | All indirect revenue items are shown on the credit side of this account. |
| 4. | The balance of this account i.e. gross profit or gross loss is transferred to P&L. A/c. | The balance of this account i.e. net profit or net loss is transferred to the capital account of the proprietor. |

II. Position Statement or Balance Sheet

Balance Sheet or Position Statement is prepared to find out the financial position of a business on a particular date. Generally it is prepared on the last date of an accounting year. It is prepared after preparing Trading Account and Profit & Loss Account.

Balance Sheet has two sides. Left hand side is known as Liabilities side and right hand side is known as Assets side.

The Liabilities side is used for showing liabilities of the business. The term liabilities include 'Internal Liabilities' and 'External Liabilities' of the business. Internal liabilities means the amount payable by the business to its owner, while external liabilities mean the amount payable to outsiders.

MODULE - V

Preparation of Financial Statements

Notes

Preparation of Financial Statements

Financial Statements (Without Adjustment)

Classification of Internal and External Liabilities

| | Internal liabilities | External liabilities |
|----|----------------------|---------------------------|
| a. | Capital | Creditors |
| b. | Profits of business | Bank loan and other loans |
| c. | Reserves of business | Expenses payable or due |

The Assets side is used for showing the assets of the business. The term assets includes fixed assets and current assets of the business.

Classification of Assets

| | Fixed Assets | Current Assets |
|----|---------------------|----------------|
| a. | Land and building | Cash in hand |
| b. | Plant & Machinery | Cash at Bank |
| c. | Furniture | Stock of goods |
| d. | Motor Vehicles etc. | Debtors etc. |

Objectives of Preparing Balance Sheet

Balance sheet is prepared to achieve following objectives:

- i) To know the financial position of the business.
- ii) To know the position of internal liabilities and external liabilities of the business so that timely arrangement can be made for their payment.
- iii) To know the position of fixed assets and current assets.
- iv) To plan activities for future on the basis of present financial position.
