MY VISION FOR INDIA

On national days such as the Republic Day and the Independence Day, you must have heard the speeches made by our leaders. These speeches inform us about the progress of the nation. They also tell us about some new initiatives which the government plans to take for the continuous development of the nation. Do you feel inspired and enthusiastic when you hear such speeches? Do they make you feel that you too should contribute a bit and make India one of the best nations in the world?

Let us read the speech delivered by our former President, Dr. A.P.J. Abdul Kalam and know what his vision for India is.

OBJECTIVES

After completing this lesson you will be able to:

- appreciate the former President Dr. Kalam’s vision for India;
- identifying an individual’s role in India’s development;
- use identical pairs of words having different meanings in sentences of your own;
- use modals appropriately; and
- write a descriptive paragraph.

15.1 LET US READ THE TEXT

I have three visions for India. In 3000 years of our history people from all over the world have come and invaded us, captured our lands, conquered our minds. From Alexander

onwards the Greeks, the Turks, the Moguls, the Portuguese, the British, the French, the Dutch, all of them came and looted us, took over what was ours. Yet we have not done this to any other nation. We have not conquered anyone. We have not grabbed their land, their culture and their history and tried to enforce our way of life on them. Why? Because we respect the freedom of others. That is why my **FIRST VISION** is that of **FREEDOM**. I believe that India got its first vision of this in 1857, when we started the war of Independence. It is this freedom that we must protect and nurture and build on. If we are not free, no one will respect us.

Fig. 15.1

We have 10 percent growth rate in most areas. Our poverty levels are falling. Our achievements are being globally recognised today. Yet we lack the self-confidence to see ourselves as a developed nation, self-reliant and self-assured. Isn't this incorrect? **MY SECOND VISION** for India is **DEVELOPMENT**. For fifty years we have been a developing nation. It is time we see ourselves as a developed nation. We are among top five nations in the world in terms of GDP.

I have a **THIRD VISION**. India must stand up to the world. Because I believe that unless India stands up to the world, no one will respect us. Only strength respects strength. We must be strong not only as a military power but also as an economic power. Both must go hand-in-hand. My good fortune was to have worked with three great minds. Dr. Vikram Sarabhai, of the Dept. of Space, Professor Satish Dhawan, who succeeded him and Dr. Brahm Prakash, father of nuclear material. I was lucky to have worked with all three of them closely and consider this the great opportunity of my life.

I was in Hyderabad giving this lecture, when a 14 year-old girl asked me for my autograph. I asked her what her goal in life is. She replied: I want to live in a developed India. For her, you and I will have to build this developed India. You must proclaim India is not an under-developed nation; it is a highly developed nation.

You say that our government is inefficient. You say that our laws are too old. You say that the municipality does not pick up the garbage. You say that the phones don't work, the railways are a joke, the airline is the worst in the world, and mails never reach their destination. You say that our country has been fed to the dogs and is the absolute pits. You say, say and say. What do you do about it?

Dear Indians, I am echoing J.F.Kennedy's words to his fellow Americans to relate to Indians "ASK WHAT WE CAN DO FOR INDIA AND DO WHAT HAS TO BE DONE TO MAKE INDIA WHAT AMERICA AND OTHER WESTERN COUNTRIES ARE TODAY."

15.2 LET US UNDERSTAND THE TEXT

15.2.2 PART 1

I have will respect us.

Our country has been invaded and controlled by many different rulers during our 3000 year old history. You must have heard about the British rule in India. But you would have never heard of India attacking another nation or conquering it. This is because we fought very hard to win our own freedom and so we respect others' freedom. Now that we have our freedom we must value it. Dr. A.P.J. Abdul Kalam says that by protecting our freedom we can get the respect of other nations.

THE FIRST PRESIDENT OF INDIA

WHAT YOU HAVE LEARNT

Dr. A.P.J. Kalam has three goals that he would like India to achieve. All the three goals are related to each other. **Freedom** and independence will have real meaning if we develop economically. Economic **development** will help us to be strong and will make other countries **respect** us. But we the people of India are responsible for the development of our country, and for making it one of the leading nations of the world. Each one of us needs to do whatever is necessary to make Dr. Kalam's VISION come true. It is time to stop complaining about the problems in our country and to start doing something about them. In this lesson we have learnt to evaluate and reflect on our contributions towards the development of India.

TERMINAL QUESTIONS
