Corrigendum

Reference: Limited Tender Document for development of ODE QBMS

As per the schedule mentioned in the Limited Tender Document for development of ODE QBMS, the pre-bid meeting was held on 25.11.2024 at 11am. The queries raised by the vendors noted. Based on the queries, the corrigendum is released along with the updated Technical Bid and extension of the date of submission of the bid to 3rd December 2024 by 11am.

The responses to the queries are enclosed as Annexure 'A'.

Naveen Bhatia

Annexure A

S.N.	Query	Response
1	Exemption from EMD may be considered for eligible bidders.	Since the work is related to an important activity related to examinations therefore all Bidders have to submit the EMD.
2	Extension of last date for submission of the LTE may be considered.	Last date has been extended up to 03/12/2024.
3	The requested system will be Web based or standalone system	It can be browser based standalone solution which can be migrated to web-based solution (if required in future) by migrating the hosting of servers/db/application.
4	Will the vendor have to deploy the developers Onsite or offsite for the development of ODE QBMS?	The development can be done at vendor's location but the implementation and training shall be done at NIOS HQ.
5	It was asked by the vendor that if any agency is having the pre-developed solution (Prototype): then can the solution can be deployed after customization as per the requirement of NIOS.	If the vendor has the pre-developed solution, it shall be customized as per the scope of work mentioned in the Tender Document.
6	It was asked by the vendor that whether NIOS will require Work flow approval approach?	No
7	Whether the Software will be used within NIOS network only?	Yes
8	Will the S/W be specific to IP or MAC ID?	No, it will be password protected and user specific in intranet of NIOS, no specific binding we be required.
9	Whether Infrastructure including (O.S. and DB) will be provided by NIOS?	For implementation, Servers with OS and Required DB will be provided by NIOS.
10	What are the provisions for AMC of the S/W?	The scope and details of AMC (Post delivery maintenance) have been given in the tender document.
11	Whether Net worth of 5 Cr is correct? Because the annual turnover of 1CR is not in sync with the cost of 5CR. It may be discussed for any change in net worth and may be communicate accordingly.	Since the work is related to an important activity related to examinations therefore the criteria for net worth is to be followed.
12	What type of Multilingual support will be required?	A list of languages shall be provided by NIOS. The software system shall be able to support generation of QPs in these languages separately and jointly together.
13	Security Audit is to be done every year or at the time of deployment only?	The security audit is to be done as per tender document at the time of deployment not year on year basis.

14	Annual Turnover (Point No. 9 & 10 sought clarification): It may be clarified by the NIOS.	The tender document has been updated and point no. 10 has been removed from the technical bid.
15	List of reports: Reports sample may be provided by NIOS.	NIOS will be requiring simple reports which the successful bidder will be able to generate on the basis of QB Database and the templates.
