

National Institute of Open Schooling
Senior Secondary Course – Library and Information Science
Lesson 1 : Library and Information Centers
Worksheet - 1

1. What are the visible differences you can find when you visit a library, and an information centre?
2. How do you think a visit to the local library can help you grow?
3. How do you think that libraries can help us in lifelong learning?
4. What factors have influenced the changing role that libraries now play in our lives?
5. ‘The use of library by people make them well informed citizens of the society and educated in course of time and allows them to become knowledgeable and educated in due course of time.’

Create a question for this statement.

6. TASK

Visit the ‘digital library of India’ online and see how can you access the material and kinds of documents are available. Enlist 10 takeaways.

7. Where can you find rare collection of documents and books in India? Enlist three.
8. What kind of repository would you like NIOS to create for its learners to help them learn online?
9. Do you think that “Information analysis centres” validate the information before disseminating it? Support your answer with valid arguments.
10. How did people preserve and exchange knowledge before the existence of libraries, in medieval times? Enlist three ways.
