Lesson 21 – Group processes
Worksheet-21

1. Identify any one group from your surroundings; explain the nature of the group.
2. “The most important characteristic of a group is interdependence. It may be related to behaviours and outcomes of tasks”. Discuss the given statement.
3. Even though different groups have different aims and goals, every group has a basic mode of operation. Explain how a group operates.
4. Seema is worried about public speaking. Her parents suggested that she should join a group that works upon public speaking skills. Explain how this group can help Seema.
5. Discuss the four stages of group development. Try to identify at least two of these stages in your daily-life groups.
6. Compare primary groups to secondary groups. Explain how they differ from each other and support your answer with examples.
7. “The group as a whole takes greater risk than the individual”. Critically analyze the given statement.
8. In your opinion, does social facilitation have positive influences only? Support your answer with reason and examples.
